

## Welcoming Remarks – Bob Lindeman, ISA President

Bob has worked in the instrumentation field since his graduation in 1971. His experience covers all aspects of instrumentation and control systems design, operation, and maintenance and project management in support of ground test facilities including altitude engine test cells, wind tunnels and space simulation chambers. He is a Certified Automation Professional and Project Management Professional.

Bob works for the Aerospace Testing Alliance and is System Engineer for a new space environmental test facility currently under development at Arnold Engineering Development Center. He is also the ATA Technical Fellow for the Instrumentation, Control, Data and Automation Center of Technical Excellence. Bob is a member of the Tullahoma, Tennessee Utility Board, his hometown's provider of Electricity, Water, Wastewater and Fiber service.

Bob has been actively involved in the International Society of Automation for many years, becoming a Senior Member in 1993. He was named an ISA Fellow in 2001. He has helped organize multiple International Instrumentation Symposia over the last 20 years. He has served in leadership roles as Division Director, Department VP, and Division Facilitator and is currently the President of ISA.
